

## TWENTY-ONE YEARS

### In Penitentiary Given Hiram Powers for Killing Renfrow.

#### One Juror Saved Him From Life Imprisonment--Insanity Plea Didn't Work.

After deliberating nine and one-half hours the jury which tried the case of Hiram C. Powers for the murder of Fitzhugh Renfrow at 9:30 o'clock last Saturday night returned a verdict of guilty and fixed his punishment at confinement in the penitentiary for a period of twenty-one years.

The verdict was a great surprise to the defendant who had all the time expected an acquittal. He pleaded self defense and insanity and the latter plea was supported by the evidence of quite a number of physicians of excellent standing in their profession as well as a record of several cases of insanity in the family of the defendant and the further fact that Commonwealth's Attorney B. D. Ringo, who led the prosecution, had said less than a year ago that the defendant was "crazy." Relying on these means of evidence the defendant felt confident of an acquittal.

But the evidence of guilt was so strong and convincing. The eye witnesses swore that the killing was done without provocation and most of the jury evidently believed it to be a case of unprovoked wilful murder as it is asserted that only one juror stood between the defendant and life sentence, he holding out for twenty-one years, to which the eleven others agreed rather than have a mistrial. It is also asserted that four jurors favored only twenty-one years. It is clear however that the insanity plea had but little weight with the jury, and his plea of self defense fell flat, there being practically no evidence except the statements of the defendant himself to substantiate that ground of defense.

Dr. Maxwell, a son-in-law of the defendant and Mr. William Park were the chief witnesses for the prosecution being the nearest eye witness to the tragedy. Their statements were unimpeachable straight forward and convincing. Several other witnesses gave important evidence.

The sentence of twenty-one years given Powers will probably amount to a life sentence for him. It is freely predicted that he cannot survive even half of his term, but that a life sentence would have been more commensurate with the crime he committed is the sentiment of a majority of the people who heard the trial.

The defendant has made a motion for a new trial and if the court refuses it he will probably appeal his case to the Court of Appeals.

#### A Fordsville Wedding.

A wedding of interest to many Owensboro people, was solemnized at 6 o'clock Monday Morning by Rev. T. J. Ratcliff at Fordsville, when Miss Dora Holderman and Mr. Robert Miller, of that place were united in marriage. The wedding was a surprise to the friends of the young people and only a few attended the ceremony, which was performed at the home of the bride's aunt.

Mrs. Miller was a daughter of Mr. Jake Holderman and had won a large number of friends and acquaintances by her many charms. She is one of Fordsville's most attractive young women. Mr. Miller is an excellent young man in every

respect and is well known here as well as at his home. He is a brother of Mr. Clarence J. Miller, of this city.

Mr. and Mrs. Miller came to the city this morning to attend the Chautauqua, after which they will return to Fordsville to reside. While here they will be the guests of Mrs. W. T. May and Mr. and Mrs. C. J. Miller.

#### Work Begins at State Capitol.

Frankfort, Ky., Aug. 14. The work of construction on the new state capitol was begun this morning by Bahle & Zehnder, Louisville contractors, who have the foundation excavation work. The contractor's representatives also began the erection of his offices and tool houses on the grounds.

#### STATE ATTORNEY.

#### Sends State's Brief in Howard Case to Supreme Court.

Frankfort, Ky., Aug. 18. Attorney General Hays has forwarded to the Clerk of the United States Court at Washington his brief in the case of James B. Howard, the convicted murder assassin which is in that court on writ of error, and is to be heard at the coming October term.

The brief is printed and covers 130 pages. It is a complete history of the case, and in the argument for the Commonwealth cities authorities of many State and Federal courts in support of the contention that no Federal question is involved in the case.

The appeal in this case is from a judgment of the Franklin Circuit Court, which was affirmed by the Court of Appeals, sentencing Howard to imprisonment for life in the State penitentiary. The appeal to the Supreme Court is based on the alleged denial of the equal protection of the laws. The State Court of Appeals held that rulings of the trial court on challenges to the panel of jurors for cause in a criminal case are not subject to exceptions or review, and are final.

#### "My Own Story."

[Louisville Herald.]

The first edition of "My Own Story," by Caleb Powers, having been exhausted, a new edition is to be shortly put on the market by the Bobbs-Merrill Publishing Company, of Indianapolis. Mr. Powers has a substantial cash interest in every copy of the work sold. Those who buy the book, therefore, promote the cause of justice. The money received by Mr. Powers is needed to secure him a fair trial, either before United States courts or the State tribunals, as may be in time decided by the highest court in the land.

The book is a calmly told, interesting life narrative, full of dramatic interest and situation. It is a record of brave struggles, of severe trials of patience, endurance, loyalty and rectitude manifested throughout, often under circumstances of extreme difficulty. It is a chapter of Kentucky history of unique value that should be in every fair-minded man's hands. The price of the book is \$1.50 per copy. The volume includes nearly 500 pages. It is well bound, and amply as well as artistically illustrated, fit to adorn any library.

#### CLASH AT ROCKPORT.

#### Between About Thirty Negroes And Fifteen to Twenty Whites.

A clash between the negroes and whites at Rockport began last Saturday night and assumed serious proportions before the engaging parties were quieted. It is reported that the trouble grew out of a trivial matter, some dispute arising between one of the colored fellows and a white man about a lunch, perhaps five cents worth of cheese, and they engaged in abuse one of the other, during which the colored fellow called the white man a d--n s--o--b-- which the white fellow resented others joined in and a general fight occurred. Volley after volley were fired from the ever ready pistols but no one was seriously hurt. Finally about midnight all the belligerents acquitted the scene and all became quiet.

The fight was renewed the next day (Sunday) when a report reached Rockport that several negroes had congregated and armed themselves and were on their way to town. The whites did not wait for them to arrive but about fifteen or twenty armed themselves with pistols, rifles and shot-guns and sallied forth to meet the negroes, a crowd of whom they found at Pet Render's. They opened fire on the dark skins and in a short while put them to flight.

One of the negroes who was in these fights came to Hartford Monday and had a warrant issued for fifteen of the whites who are alleged to have been engaged in the difficulty. The warrant, which charges them with banding together to disturb or injure other persons, upon conviction for which one to five years in the penitentiary being the penalty, was placed in the hands of Deputy Sheriff Chester Keown who went to Rockport Wednesday to execute it. After spending the whole day executing the warrant and making arrangements to bring those arrested to Hartford, he was directed by County Attorney W. H. Barnes to turn the warrant over to the Rockport Police Court where the examining trial will be had.

#### WILL FACE DEATH.

#### St. Paul Specialist Will Let Pest Bearing Mosquito Bite Him.

New Orleans, Aug. 16. Arsenic as a preventive of yellow fever will be given a thorough test by Dr. Reginald B. Leach, a St. Paul specialist. The doctor, who for some time has been taking arsenic pills, will to-morrow night invade the most infected district of the city and allow himself to be bitten by the stegomyia fasciata, the pest-bearing mosquito, and will then return to his hotel to await results.

Dr. Leach will make the experiment on his own responsibility. He came here some days ago and tried to interest the New Orleans Medical society in the treatment but without success. A third or more of the New Orleans people are taking his arsenic pills and would like to have a practical test to show the virtue of the pellets.

## A COMRADE OF GENERAL GRANT

Says: "I Do Not Believe Pe-ru-na Has a Superior."

COL. BENJ. F. HAWKES.

Col. Benj. F. Hawkes, of 611 G street, S. W., Washington, D. C., is one of the three living comrades of General Grant in his cadet days at West Point. In a recent letter this venerable gentleman says of Peruna:

"I have tried Peruna after having tried in vain other remedies for catarrh, and I can say without reservation that I never felt a symptom of relief until I had given Peruna the simple trial that its advocates advise. I do not believe it has a superior either as a remedy for catarrh or as a tonic for the depressing and exhausted condition which is one of the effects of the disease."--Benj. F. Hawkes.

#### The Greatest Family Medicine Ever Discovered.

Hon. Wm. G. Hunter, ex-member North Carolina Legislature, writes from the Census Office Building, Washington, D. C., as follows:

"The greatest family medicine ever discovered, in my opinion, which comes from experience as well as observation, is Peruna. The most common affliction to humankind is a bad cold. Peruna drives it out of doors, wards off catarrh, invigorates and gives fresh strength to mind and body. I give Peruna my unqualified endorsement."--Wm. G. Hunter.

#### Chronic Catarrh of the Stomach Cured By Pe-ru-na.

Jas. T. Jakeman, President Elder Mormon Church, Salt Lake City, Utah, writes:

"I should be and am a very grateful man for having been recommended the use of Peruna for catarrh. I had a chronic case of catarrh of the stomach and my system was so filled with different remedies that I had taken, that I sickened at the sight of a medicine bottle. Peruna was a last resort and it did not fail me, but cured me in about three

months and I feel that it is a wonderful remedy and gladly give my experience from its use."--Jas. T. Jakeman.

#### Pe-ru-na Proved a Life Saver.

Mr. Louis Byrens, auctioneer, commission merchant and business broker, 436 1/2 Richmond street, London, Ont., writes:

"I had been a sufferer with what physicians diagnosed as chronic catarrh. I thereby lost the necessary speaking faculties, which almost caused me to discontinue the business of auctioneer."

"After spending several hundred dollars for various medicines and doctor bills without avail, your wonderful remedy, Peruna, was recommended to me."

"After using several bottles of this life saver, I found relief, and I am again capable of conducting my auction sales. I wish to convince others, likewise afflicted, of the merits of your great remedy."--Louis Byrens.

#### Thousands of Testimonials.

We have on file thousands of testimonials like the ones given here. We can give our readers only a slight glimpse of the vast array of unsolicited endorsements of Peruna which we are constantly receiving.

#### FUNERAL POSTPONED.

#### At Henderson Because Corpse Showed Signs of Life.

Henderson, Ky., Aug. 15. The funeral services over the remains of Mrs. John W. Alves, who died Saturday morning at the family home on Second street at 5:45 o'clock, were postponed on account of some appearances of life that were discovered Sunday afternoon just before the services were to have been held. Signs of circulation seemed to appear on the forehead of the deceased, and after further investigation the hands seemed to bear some signs of life.

Dr. Ben Letcher was called in to examine the remains. Dr. Letcher did not think there were any signs of life, but, anyhow, the funeral services were postponed till yesterday morning. Though there was little hope of still remaining life, the members of the family of the deceased thought it best to postpone the funeral.

#### What They Agree on.

The four "articles" disposed of by the envoys of Russia and Japan are in substance as follows:

1. Russia's recognition of Japan's "preponderating influence" and special position in Korea, which Russia henceforth agrees as outside of her sphere of influence. Japan to recognize the suzerainty of the reigning family and improve the civil administration of the empire.

2. Mutual obligation to evacuate Manchuria, each to surrender all

special privileges, natural obligation to respect the "territorial integrity" of China and to maintain the principal of the open door.

3. The cession to China of the Chinese Eastern Railroad from Harbin southward.

4. Mutual pledges to observe the integrity of China and the policy of the open door for the commerce of all nations. The surrender of the Russian leases to the Liaotung peninsula, Port Arthur, Dalny and the Blonde and Elliott Islands.

#### WHAT THEY HAVE NOT AGREED ON.

1. Reimbursement for the cost of the war.

2. Cession of the Island of Sakhalin.

3. The grant of fishing rights to Japan in the water of the Siberian littoral northward from Vladivostok to the Bering Sea.

4. The relinquishment to Japan of the Russian warships interred in neutral ports.

5. A limitation upon the naval strength of Russia in Far Eastern waters.

#### RIGID AS IRON.

#### Was a Woman Who Took Headache Powders---Then She Died.

Huntington, W. Va., Aug. 14. While Mrs. Thomas Patterson was preparing supper this evening she was stricken with a violent headache, and going to the medical chest took a headache powder that has been thrown in at her door the day before. Immediately she was seized with internal spasm, and within an hour was dead. Her body was rigid as a piece of iron five minutes before death.

#### In Trouble at Island.

As the result of a difficulty with Jack Matthews, Everett Foster, of Island, is under arrest on the charge of shooting with intent to kill and, besides, is suffering from a broken arm received by falling over a fence in a hasty retreat after he had emptied three chambers of his revolver at Matthews. The men got into a dispute over a rubber ball, according to reports from persons in the vicinity, and both drew their revolvers. Foster seems to have been quicker than his antagonist, but was very inaccurate in his aim, none of his shots taking effect.

After firing three shots, Foster turned to run and fell over a fence, breaking his arm. He was arrested shortly after the shooting.

CASTORIA. The Kind You Have Always Bought Bears the Signature of

## POWERFUL HOGS.

### Carried a Barn on Their Backs and Dumped It Down Hill.

(Lancaster (Minn.) Star, Chicago Chronicle.)

T. P. Schanch of Minnesota has been sued by V. M. Mach in a queer case.

Schanch has a pasture adjoining Mach's premises and keeps a large number of hogs in it during the summer. There is on Mach's place, of land, a barn which was set upon posts about 18 inches from the ground. The ground slopes toward the pasture, so that the barn is higher on that side and the door joists run crosswise with the building, their end coming up to the property line next to the pasture. During the recent hot weather the hogs crowded into the shade of the barn, broke down the fence and crawled under the barn by walking between the joists. There was a large number of them about 60, and they were big and strong.

Mach soon appeared, and seeing the hogs on his property set his dogs on them. They could not get out fast enough by running along between the joists, the way they came in and nearly all tried to get out the other way, by crawling under the joists and running straight back from the road, away from the dog.

There were so many of them trying to do this at once with their combined strength they lifted the barn off the foundations and carried it several rods away on their backs to the edge of a hill, down which the barn rolled, killing a dozen hogs and wrecking the barn at the foot of the hill.

Mach sues Schanch for the value of the barn and Schanch puts in a counter claim for the value of the hogs.

Section 10. That the brick or stone pavements ordered and directed by the City Council to be erected and constructed on the streets in the City of Hartford, Kentucky, as set out in section 1, 2, 3, 4, 5, 6, 7, 8 and 9 of this article be constructed of good, hard paving brick or smoothly dressed stone jointed and fitted together in such a manner as to make a good, lasting and substantial pavement or side walk, same to be placed on a bed of sand properly leveled and of not less than 3 inches in depth, and to be secured with a good stone curbing jointed, dressed and fitted together, the same to be of not less than 15 inches in width and at least 3 inches thick placed on the side of said walk and contiguous with the same next to the street on which each of said walks are ordered to be constructed. Each and all of said pavements or walks including the concrete to be constructed and the grade of same to be with reference to the datum line as established by the ordinance fixing and establishing the grade of the streets and alleys in said city, which was adopted and enacted by the Board of Trustees of said town at a meeting of said Board held on the 5th day of September 1900.

Section 11. That if any of the property or land owners whose property front and abut on the streets and alleys where side walks or pavements are ordered and directed to be constructed by this ordinance as set out in section 1, 2, 3, 4, 5, 6, 7, 8, 9, and 10 fail or refuse to make the side walks as ordered and directed here in on or before the 15th day of October, 1905 after the enactment and publication of this ordinance it shall be the duty of the marshal of said town to select and appoint three sober, discreet, intelligent and disinterested housekeepers, who after being first duly sworn by the Mayor or some other officer authorized by law to administer an oath to faithfully discharge their duties, shall give to each delinquent abutting and fronting land owner who has failed

and refused to comply with this ordinance written notice that they will go upon and assess separately the full value of each lot or portion of lots whose owners fail or refuse to comply with this ordinance, in proportion of the frontage of said lot or lots on said street to the entire length of the whole improvement ordained to be made not to exceed a square to cover the expense of the construction of the work. Said appraisers or assessors shall report their assessment or valuation in writing to the City Council and said Marshall or supervisors of streets shall advertise the letting of each job of unconstructed or uncurbed side sidewalk as may remain unimproved, unconstructed or uncurbed as above provided herein to be let on a day not more than fifteen days after the report of the appraisers herein to the lowest and best bidder. He will give due notice of the letting of such work by advertising same to be taken separately or as a whole as he deems best to the said lowest and best bidder by publication in a newspaper published in said city at least fifteen days before said day of letting. He will require of the contractor of said work to enter into a written contract with the City Council of said town in which the specifications herein made for each and all of said pavements shall be inserted from such pavements as he shall by his contract undertake to construct. He shall furnish good and sufficient security to be approved by an order of the City Council to faithfully perform his said contract, and said contractor shall have a lien upon the property fronting and abutting on the street where said pavement or side walk is to be contracted for the contract price of said work. In the event of the failure of any one to bid for and secure the said contract or contracts the said City Council upon such failure will proceed to make said pavements and curbing according to the specifications contained in this ordinance retaining a lien upon said property for the expense of the construction thereof.

Section 12. The expense incurred in making and constructing the side walks or pavements and grading for same shall be paid by the owners of land fronting and abutting thereon, each lot or a portion of a lot being assessed for the full value thereof in proportion of the frontage thereof to the entire length of the whole improvement, not exceeding a square, sufficient to cover the to-

tal expense of the work.

## RULES OF HEALTH.

### Temperance, Abstinence of Worry a Youthful Mind and Plenty of Sleep.

(New York World.)

A famous New York physician, now hale and handsome at 75, sums up his half a century of medical practice and observation in these simple rules of health:

1. Be temperate in all things, in matters of amusement or study as well as in regard to foods and drinks. To be temperate in all things, however, does not imply that one must be a prohibitionist about anything.

2. Don't be afraid to go to sleep, for sleep is the best restorer of wasted energies. Sleep a certain number of hours every night, and then remember that a short nap during the day is a safer rejuvenator than a cocktail.

3. Don't worry—either about the past or the future. To waste a single hour in regret for the past is as senseless as to send good money after that which has been irretrievably lost. To fret one's self about what the future may have in store is about as reasonable as to attempt to brush back the tide of the ocean with a broom. Worry, of whatever kind, banishes contentment, and contentment is a necessity of youth.

4. Keep the mind youthful. Live in the present with all the other young people. Don't get to be reminiscent. Let the old people talk about the past, for the mere act of thinking about old things reminds the mind of its years. Reminiscences are dangerous whether they be soothing or sweet or sad—for they characterize old age, and must be sedulously avoided by those who would be ever young.

5. Keep up with the time. Don't fall behind the procession. To accomplish this learn one new fact every day. The mind that is satisfied to live upon the lessons it learned in its youth soon grows old and musty. To keep young it must be fresh and active—that is, abreast with the times. The old methods of thought and the old facts may have been correct enough once upon a time, but that time has passed. Today they are obsolete and only amusing as relics of antiquity. To remain young therefore, one must keep the storehouse of the memory clear of all such rubbish. Throw away one of the mildewed relics every day and replace it with some newer, fresher and more up-to-date fact.

Here, then, is this New York Physician's secret of perennial youth in a nutshell:

Be temperate! Don't be afraid to go to sleep! And—keep up with the time.

It is not a difficult rule of life to follow. It is ever so much easier than wandering about strange lands in search of hidden springs. It is somewhat pleasanter than stewing over ill-smelling crucibles. Moreover, it has the advantage of being thoroughly practicable, which makes it well worth trying.

**Deafness Cannot be Cured** by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result and unless inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surface.

We will offer One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

### WHO CANNOT BE CURED.

Backed up by over a third of a century of remarkable and uniform cures, a record such as no other remedy for the diseases and weaknesses peculiar to women ever attained, the proprietors and makers of Dr. Pierce's Favorite Prescription now feel fully warranted in offering to pay \$500 in legal money of the United States for any case of Leucorrhoea, Female Weakness, Protrusion, or Falling of Womb, which they cannot cure. All they ask is a fair and reasonable trial of their means of cure.

"I have found Dr. Pierce's Favorite Prescription of inestimable value," writes Mrs. Ellen Alma Bryan (Treasurer Memphis Century Club), of 10 Vance Street, Memphis, Tenn. "I was a tonic for over-wrought nerves, or when one is troubled with general lassitude and an irritable condition, hardly knowing what the trouble is. I was advised to use it by a member of our Club and the effect on me was truly wonderful. Within two weeks I was like a new woman. I could eat and sleep as I have not been able to for months, my nerves became strong and the mental equilibrium was restored as well as the physical. Your medicine has my highest endorsement."

Don't hesitate to write to Dr. R. V. Pierce, chief consulting physician to the Invalids' Hotel and Surgical Institute, at Buffalo, N. Y. if you want good medical advice from a fully qualified physician as to your personal good health. Such letters are always answered free of charge and confidentially. A medicine which has outlasted all others for women in the past third of a century and being recommended by all those who have used it, is a good remedy to tie to. Dr. Pierce's Favorite Prescription is purely vegetable and does not contain a particle of alcohol to destroy the blood corpuscles and weaken the system. Do not permit the dealer to insult your intelligence by suggesting some other compound which he recommends as "just as good," because he makes it himself.

down on the stool and struck one note.

Immediately afterward he gave a loud groan, whereupon the manager came up, and addressing the audience, said:

"Ladies and gentlemen, the elephant has just discovered the tooth of his mother in one of the keys, and is overcome with grief, so I will immediately telegraph for another piano. In the meantime we will proceed with the other part of the performance."

### The Only Way.

There is one way of maintaining the health and strength of mind and body except by nourishment. There is no way to nourish except through the stomach. The stomach must be kept healthy, pure and sweet or the strength will let down and disease will set up. No appetite, loss of strength, nervousness, headache, constipation, bad breath, sour risings, rifting, in digestion, dyspepsia and all stomach troubles that are curable are quickly cured by the use of Kodol Dyspepsia Cure. Kodol digests what you eat and strengthens the whole digestive apparatus. Z. Wayne Griffin & Bro.

### Here's a Hunch.

"There is nothing makes me so tired as to have a man forever trying to kiss me," said the beautiful girl.

"That's right," sided in her chum. "If I were a man and wanted to kiss a girl I'd do it and have it over with. This fooling around and trying to do it gets monotonous."

### Fraud Exposed.

A few counterfeiters have lately been making and trying to sell imitations of Dr. King's New Discovery for Consumption, Coughs and Colds, and other medicine, thereby defrauding the public. This is to warn you to beware of such people, who seek to profit, through stealing the reputation of remedies which have been successfully curing disease, for over 35 years. A sure protection to you, is our name on the wrapper. Look for it on all Dr. King's, or Bucklin's remedies, as all other are mere imitations. H. E. Bucklin & Co., Chicago, Ill., and Windsor, Canada. Z. Wayne Griffin & Bro.

### Train and Track.

The total number of passengers carried by electric lines each year in the United States is 5,836,000,000.

On the state railways in Germany the colors of the carriage are the same as the tickets of their respective classes. Thus first class carriage are yellow, second class green and third class white.

The south has more railroads in process of construction and seriously projected than all the rest of the United States. Work is being done on 4,766 miles of new railroad in the south and on 2,734 miles in the balance of the country.

## YELLOW FEVER MOSQUITO.

### Experiments Show That it is the Only Means by Which Disease is Transmitted.

The following now while yellow fever is so prevalent in Louisiana, is of special interest.

The whole effort of those who are combatting the yellow fever is directed against the mosquito. There is, apparently, one variety of mosquito responsible for the scourge. This is the stegomyia fasciata.

The germ of yellow fever has never been described, but the experiments of America physicians have demonstrated that the mosquito is able to carry his germ. The experiments which were conducted in Cuba in 1900 involved the highest degree of heroism as well as of scientific research on the part of the investigators, for Dr. Carroll and Dr. Lazear both allowed themselves to be bitten by infected insects in order to demonstrate the truth of the mosquito theory, and Dr. Lazear died from the fever thus deliberately contracted.

The investigations proved that yellow fever is transmitted only by the bite of a mosquito infected by biting a sick person within the first three days of an attack and that the insect is dangerous only after an interval of twelve days following its ingestion of virulent blood. The inference is that the germ disappears from the blood of a fever patient on the fourth day of the disease and that it requires twelve days to go through the cycle of development necessary to make it dangerous.

The transmission of yellow fever is thus closely analogous to the propagation of malaria. In the latter case the mosquito that conveys the disease parasite is of the anophel variety which is commonly active only between sunrise and sunset. It requires from seven to fourteen days for the parasite, after it has entered the mosquito, to reach an infectious age of development.

While there are still a few who doubt the mosquito theory, it has been so fully demonstrated that all men of science now accept it fully.

### Vain Hopes.

Markley—He tells me he expects to take two weeks' vacation at the seashore.

Borroughs—Yes, but he won't do it.

Markley—why won't his boss let him off?

Borroughs—O! yes, but he's counting on paying his way with \$50 I owe him.

### A Submarine Elevator.

An Italian engineer, Signor Jello, has invented a submarine elevator for raising wrecked vessels. The invention was recently put to a practical test, with complete success, in the Bay of Naples, where a stone-laden barge sunk a couple of years ago, and lying at a depth of about 50 feet, was brought to the surface with ease. The weight lifted was about 60 tons. The apparatus con-

### Gibraltar is Crumbling.

The public is not aware that the great Rock of Gibraltar is tumbling down—that its crumbling, rotting masses must be continually bound together with huge patches of masonry and cement.

Yet they who sail past Gibraltar cannot fail to notice on the eastern slope of the fortress enormous silver-colored patches gleaming in the sun. These patches, in some cases 30 or 40 feet square, are the proof of Gibraltar's disintegration. Of thick, strong cement, they keep huge spurs of the cliff's side from tumbling into the blue sea.

Sea Captains, cruising in the Mediterranean, say that Gibraltar has been rotting and crumbling for many years but that of late the disintegration has gone on at a faster rate than theretofore.

They say that the stone forming this imposing cliff is rotten stone, and that in a little while the phrase "the strength of Gibraltar," will be meaningless.

### Grave Trouble Foreseen.

It needs but little foresight, to tell, that when your stomach and liver are badly affected, grave trouble is ahead, unless you take the proper medicine for your disease, as Mrs. John A. Young, of Clay, N. Y., did. She says: "I had neuralgia of the liver and stomach, my heart was weakened, and I could not eat. I was very bad for a long time, but in Electric Bitters, I found just what I needed, for they quickly relieved and cured me." Best medicine for weak women. Sold under guarantee by Z. Wayne Griffin & Bros', druggist, at 50c a bottle.

### Quarters and Thirteen.

Superstition seems to be a part of the mental composition of every one, and it commonly centers to a rooted antipathy to the number thirteen. The first of the teens has had to stand for many an action that was ridiculous, and yet there is hardly any person who would sidestep an inch or mournfully rail at fate should he spy a silver quarter dollar on the sidewalk. In fact, he would only be too eager to place it gently in his pocket. Have you ever taken the trouble to scan closely this small piece of silver? If you have not you may be surprised to find on the eagle side that there are 13 arrows in the bundle which is clutched in the left claw, 13 laurel leaves on the branch in the other claw, 13 stars at his head, 13 letters in the Latin inscription, "E Pluribus Unum," 13 letters in the words "quarter dollar," 13 stripes on the shield, and on the front of the silver piece are 13 stars surrounding the Liberty head, and 13 leaves in Liberty's crown. This array of 13 is in commemoration of the original 13 States which comprised the Union. Despite its many thirteens the quarter is not considered unlucky.

### Dangerous and Uncertain.

For Sunburn, tetter and all skin and scalp disease, DeWitt's Witch Hazel Salve has no equal. It is a certain cure for blind, bleeding, itching and protruding piles. It will draw the fire out of a burn and heal without leaving a scar. Boils, old sores, carbuncles, etc., are quickly cured by the use of the genuine DeWitt's Witch Hazel Salve. Accept no substitute as they are often dangerous and uncertain. Sold by Z. Wayne Griffin & Bro.

### State Lines.

Nebraska has the greatest number of distinct varieties of native pasture and hay grasses of any State in the Union.

South Carolina is making a methodical and hopeful effort to divert the stream of immigration to her territory. The State has about 14,000,000 acres of unoccupied land and desires new white blood to develop the fields and mines.

The department of vital statistics reports a total of 6,789 deaths in the State of New Hampshire during 1904. Reckoning the population at 426,188, the death rate is 15.94 to the thousand. The year 1902 is the only one in the past twenty which makes a better showing.

playing your hand under the table. Why not come up with the clean thing? The building of this bridge is not a private affair—at least it will be paid for out of the public fund. Then why not have some publicity about it. The people of the county demand to know more about the iron bridge building. Will the gentlemen who have the information give it out? We invite you again to do so.

EVERY time we are reminded that the present managers of the county's fiscal affairs have paid off \$35,000 of the county's indebtedness in the past seven years we cannot refrain from asking what has become of the balance of the \$81,439.06 which has been collected from the people of Ohio county during that time in excess of what was collected in the seven years preceeding that? It has been said that figures do not lie. Follow them then and see what they show. From 1890 to 1896 inclusive, when John P. Morton was County Judge, and the only period in the history of the county when the Republican party has been in even partial control of the county's fiscal affairs, there was collected \$143,394.65 as county revenue, while from 1897 to 1904, inclusive, during Jas. P. Miller's term of office there has been collected as county revenue \$224,833.71 just \$81,439.06 more than during Morton's term. They say they have paid off \$35,000 debts. Conceding that they have, which we do not, what have they done with the \$36,439.06 which they should have left out of the extra amount collected?

turned with them.

Dr. S. J. Wedding tells us of a  
quietly affected chicken which  
was discovered in his yard a few days  
ago among this year's brood. It is  
just beginning to "feather out"  
well and during the day time is  
peart and lively but late in the af-  
ternoon when the hen gets her  
brood together for the night this  
particular chicken goes into a kind  
of stupor, is unable to walk, turns its  
head half way around and appears  
almost lifeless. When morning  
comes again he is all right and can-  
not be told from the remainder of  
the flock.

### License to Wed.

## MODERN PIRATES' PARADISE

### His Sea Robbery Flourishes Along China Coast in the Vicinity of Canton Delta.

Piracy flourishes in the Canton delta and along the China coast in that vicinity. The last report of the British consul general at Canton has an interesting story of this modern piracy. During the past year there were half a dozen serious attacks on British steam launches. Chinese passenger launches and boats are frequently held up and plundered. Complaints are made to the local authorities, but nothing is really done to protect trade. Even within the precincts of the harbor pirates and robbers plunder and loot with impunity. The people are left to protect themselves as best they may and such is their fear and dread of having anything to do with Chinese authorities that no man, whatever his grievance or wrong, will readily venture to apply to the magistrate for assistance or redress.

This insecurity of life and property tells seriously against all development of trade. From the silk districts come repeated complaints of blackmailing by local bandits. Foreign goods sent into the interior under transit passes are pirated and only in one single instance, after 18 months of arguing and battling with the officials, has a foreign consul succeeded in obtaining the recovery of a few articles and the arrest of a few men, who the magistrates gravely says are the culprits.

In one case a Hongkong junk was pirated and the cargo landed in broad day light under the eyes of the local officials by the villagers, yet nothing was done and no redress could be obtained. The Kwangsi rebellion, which has taxed all the resources of the provincial government to suppress, was the direct outcome of corruption and speculation. Let without food and pay, the soldiers of Marshal Su took to the hills and started an insurrection.

## LIVING IN HOUSTON, TEXAS

Gotham Publication Has Unique Ideas of Life in the Western Metropolis.

The New York World describes the Houston (Tex.) customs in the following paragraphs:

In the principal hotel six shooters may be checked with the hat and gloves before entering the dining-room.

All the women take one side of Main street and all the men the other.

In the very heart of the stock country it is impossible to obtain such a steak as is served in a very ordinary New York restaurant.

A glass of milk is worth from 10 to 25 cents, according to the degree of dilution by water.

All the men smoke cigarettes made by themselves out of the cheapest tobacco and rice paper. Saffron finger tips are the vogue.

When it rains the skies are open and high-top boots are a necessity. The young man who goes calling in the rainy season may change his footwear before entering.

There is no such thing as a "porch" to the native of Houston. What might be the same thing anywhere else is termed a "galery."

Hot biscuit for breakfast and rice for dinner and supper and lunch are staple on every table. Diminutive pepper berries go with everything.

Sidewalks are a missing quantity. Until recently they were counted an extravagance.

All the street cars have compartments for colored passengers. A movable screen separates the sections. It is so arranged that no negro may sit in front of a white passenger.

### "The Boots of Isaiah."

Jacob Boehme, the "mystic shoemaker," once wrote a pamphlet which he called "Reflections on the Treatise of Isaiah Stiefel." One of Boehme's biographers had never heard of that theologian. But he knew enough German to be aware that "Stiefel" meant "boot," and he was further misled by the fact that Boehme was a cobbler as well as a philosopher. So he made a brilliant shot and spoke of the pamphlet in question

as Boehme's "Reflections on the Boots of Isaiah." In this guise it passed into several catalogues.

### Lucky Doctor.

In France it is not only the uneducated who plunge in the public lotteries. They are patronized by all classes, and a Calais doctor has just found Dame Fortune more kind than he was ever likely to find Aesculapius. His name is Dr. Huc, and he took a whole ticket in the last issue of Panama lottery bonds. He has just received notification that he has drawn the grand prize of £20,000. Dr. Huc was chief surgeon to the hospitals of Calais.

## ENGLISH FLOWER GARDENS

First Man to Show That They Had Rights Was John Parkinson, Poet and Writer.

The first man who defended the flower garden as having an independent right to exist was John Parkinson, relates Harper's Magazine. Until his time everybody had made excuses for the cultivation of flowers, as if they were an agreeable but frivolous addition to the serious business of fruit trees, medicinal herbs and kitchen produce. Parkinson, who was born in 1567, was an apothecary by trade, and he had a garden in Long Acre, where nothing greener or fresher than coach-builders' show-rooms is cultivated now. He was the earliest to lay down that there were four kinds of horticultural inclosures, namely, of pleasant and delightful flowers, of kitchen herbs and roots, of simple and of fruit trees, and that the first of these must be held to be less honorable than the others. He probably had a considerable share in getting the deliberate flower garden introduced, perhaps about 1595, and he was much interested in its forms and definition. A great deal of thought had to be expended upon the bordering; it was usual to edge the grass plots with thrift, and when flowers were first grown in open beds germander was used to border them. This was a little shrub, Teucrium, from the rocky shores of the Mediterranean, with grayish, violet blossoms; it could be trained to make a dwarf hedge, and it had a pleasant faint scent. Germander, however, soon went out of fashion because it was so difficult to keep it neat and trim. Great value was then set on strongly perfumed plants, such as lavender, marjoram, thyme and sage, for borderings. But when Parkinson wrote his "Paradise in Sole," a generation later, the latest invention for edging beds was white or bluish pebbles set up in lines.

## ROBERT BURNS IN EXCISE.

Tale of How Scottish Woman Fooled Him When He Tested Quality of Her Liquor.

A story is told in Thornhill, Scotland, about Burns in his capacity as excise man. Old Jean Davidson kept a small whisky shop, and was suspected of putting more fresh water into his liquor than was needful or lawful. Burns accordingly came with his apparatus and at once detected the irregularity. "Now, Jean, ma woman," he said, "I cannot take this to Dumfries this night; 'tis over late. But I'll seal it with the king's seal, and return to lift it in the mornin'."

When he had gone to his lodging Jean fetched the village cooper, who removed a hoop from the barrel and bored a hole through which the adulterated liquor was drawn off, and stuff of regulation strength poured in. Then the hoop was refixed, and Jean, with a brave heart, awaited the gauger.

In the morning up came Burns to claim the keg. "One minute, Mr. Burns," said Jean, sweetly. "Ye might jest test that whisky to convince me; since I cannot see how I could have been makin' sic a mistake."

"It means breaking the king's seal," said Burns, "but I'll just fix on another."

So the sample was taken and tested, and, of course, was found to be all right. Burns was bewildered. "Was there aught wrong wi' me, Jean, last night?" he asked. "Weel, Mr. Burns, 'tis na for me to say—weel, I just thoct ye were fully smert wi' yer wee tester,"

## AUSTRALIA DIVORCE MECCA

More Divorces There Than in Most Countries, But Average Is by Far Less.

"Divorces in the Australian states," says United States Consul Godingat New Castle, N. S. W., "are more numerous than in most of the countries of the world, though the average is far below that reached in the United States. The number is particularly large in Victoria and New South Wales, where the facilities for procuring divorces are greater than they are in the other states. Since the passing of the Shiels act of 1890, which made desertion for three years a ground for divorce in Victoria, divorces have averaged over 100 per annum, the greatest number being 131 in 1902, and the lowest, 85 in 1895. The total for the period 1891-1903 was 1,250, and the average per 10,000 marriages for the period 1896-1902 was 125.4.

In countries where divorce laws are in force this record is only surpassed by those of Germany, 165; France, 180; Roumania, 204; Switzerland, 432, and the United States, 612 divorces for every 10,000 marriages.

In New South Wales the figures are much higher than they are in Victoria. An act similar to the Victorian measure came into force in New South Wales in 1892, and the number of divorce decrees at once showed an increase—an almost alarming increase. In the quinquennial period 1891-1896 the number of divorces granted in New South Wales was no fewer than 1,087, against 212 for the period immediately preceding it. This total gives an average of 272.3 divorces per 10,000 marriages, which is much more than double the average in Victoria during the same years, and is exceeded only by those for Switzerland and the United States. In the period 1896-1902 the number of divorces granted in New South Wales was 1,675, an average of 268.4 per 10,000 marriages, the third greatest among all countries where divorces are in force.

## BEAUTIFUL NATIVE TREES.

American Elm Should Be Planted When Soil Is Moist and Suitable—Other Good Examples.

Probably the American elm would be voted our most graceful and beautiful tree, asserts the Chautauquan. It is certainly worthy of the attention which it has received. It should be planted where the soil is suited to it and where there is an abundant moisture, and should be given a large space to develop its spreading top. Our other elms and the species which have come to us from Europe are not so graceful in shape, but they have qualities which make them worthy of place in any cemetery large enough to contain all available trees.

The maples are good trees, especially the sugar maple and the Norway maple. The latter is, perhaps, the most available ornamental tree that has come to us from Europe. It sends its leaves and blossoms out very early in the season and retains its foliage until November. It seems to delight in sandy soil.

The soft white or silver maple is a tree of very rapid growth, but it is often condemned on account of the ease with which its branches are broken by severe winds. It is also very subject to the attacks of the maple scale, but, nevertheless, it is a beautiful tree and sometimes supplies just the foliage required to form a satisfactory picture. The maples, as all know, are most attractive for the reds and yellows which they assume in autumn.

Ash trees are graceful in shape and are admirable in every way, with the exception that they are a little tardy in showing their new growth in the spring and that they drop their leaves early in the fall.

### Noted Architect.

The Prussian architect, Gustav Ebe, celebrated his seventieth birthday a few weeks ago. The buildings which he began to erect in Berlin in 1874 formed a new epoch in the architecture of the German capital. He was the first to use sandstone there as the favorite material, the first who carried out the architectural style in the

inside decorations, the first who infused a really artistic spirit into the building business.

### Weeding Out Chiefs.

The sublime porte, tired, apparently, of continuous fighting with the Albanians, without obtaining any result, seems to have adopted the more insidious plan of weeding out the chiefs. Osman Pasha, one of the most powerful chiefs in Albania, lately arrived at Scutari, ostensibly on a visit to the governor of the province. He is stated to be really, however, in a condition of gilded exile, and many other chiefs are believed to be threatened with similar treatment.

### Woman as Reformer.

The average woman would rather marry a man to reform him than not to be able to pose as any sort of a reformer.—Chicago Sun.

### BROTHER HAD NO FAMILY.

And for This Simple Reason Poor Layman Could Have No Luxury, as "Family Prayers."

It was at a certain church meeting, and the good bishop was calling for reports. He had a rather stern, sharp manner, which sometimes jarred a little on the nerves of the more timid, relates Harper's Magazine. By and by he came to Brother B—, a lay delegate. "Brother B—, what is the spiritual condition of your church?" demanded the bishop, briskly.

"I consider it good," said the brother.

"What makes you think it is good?" went on the bishop.

"Well, the people are religious. That's what makes me think so."

"What do you call religious? Do they have family prayer?"

"Some of them do, and some do not."

"Do you mean to say that a man may be a Christian and not hold family prayer?"

"Yes, sir; I think so."

"Do you hold family prayer?"

"Yes, sir," returned the brother, quietly.

"And yet you think a man may be a Christian and not hold family prayer?"

"I have a brother, who is a better man than I am, who does not hold family prayer."

"What makes you think he is a better man than you are?"

"Everybody says so, and I know he is."

"Why does not your brother, if he is such a good man, hold family prayer?" thundered the bishop.

"He has no family," meekly answered the brother.

## HIS EDUCATION IN MUSIC.

Japanese Baron Tells How Youth Practiced on Piano While Instrument Was Locked.

Baron Kaneko, of Japan, is spending the summer in the Maine woods, and the people of the picturesque Maine village of Harps well enjoy greatly his interesting comments on American life.

"I don't know," said Baron Kaneko one day, "that I altogether approve of the compulsory instruction in music that is put upon American children. If a boy or girl has an ear for music then cultivate it by all means, but don't try to make musicians out of all children indiscriminately, and thus you will avoid such household conversations as one I overheard the other day.

"I was on a train, and a father and his young son sat near me. The father said:

"John, do you practice regularly on the piano while I am away at business?"

"Yes, father," replied the boy.

"Every day?"

"Yes, sir."

"How long did you practice to day?"

"Three hours."

"And how long yesterday?"

"Two hours and a half."

"Well, I'm glad to hear that you are so regular."

"Yes, father."

"And the next time you practice be sure you unlock the piano. Here is the key. I locked the instrument last week and I have been carrying the key in my pocket ever since."

## VALUABLE PEARL.

Found Growing on the Back of an Enormous Turtle.

(New York American.)

Of all the persons in Coney Island last night, no two were quite so happy as Mr. and Mrs. Edward Morrison, of Jamaica Bay, for on Sunday Mrs. Morrison caught a 575-pound loggerhead turtle at Rockaway Inlet, and yesterday she found that the big lump on the creature's back was a "pearl barnacle," 100 years old and worth \$500. When Mrs. Morrison and her husband heard this they started at once for Coney Island to celebrate.

Mrs. Morrison, who is afraid to look at the turtle again for fear it may have a diamond necklace or a sunburst concealed somewhere, is preparing a list of her friends to give then a turtle supper. The turtle will attend the feast in a big

mooden cage and the pearl, mounted, will adorn the center of the table.

Mr. and Mrs. Morrison were out for weakfish at Rockaway Inlet, when there came a bite that almost pulled the hardy fisherman out of the boat. She held on and her husband began to row for the shore. An immense turtle crawled out on the beach and tried to get away with the line, but little Martha Morrison ran up and jumped on his back. The three soon had the creature fastened in a rope cradle and then towed it to Canarsie.

Crowds went to J. B. Casey's landing in Canarsie yesterday to get a glimpse of the big loggerhead. According to all the old fishermen of the place the turtle was an in-jaut about 400 years ago, or a short time after Columbus made his first visit to the United States.

## CALLED ISLE OF THE LOST

Island of Saghalien Is Known by That Name Because No Criminal Ever Lives to Return.

Seventeen cents a day is said to be the cost of Maxim Gorky, the Russian novelist, to the Russian government for food. Gorky was recently arrested and immured in a solitary cell by the government for his complicity in the outbreak of the people. He is luxuriously fed in comparison with the Russian political prisoners and criminals on the Island of Saghalien. The allowance for these is seven and one-half cents for the same period.

Saghalien is an attenuated island lying off the eastern coast of Siberia, in the Sea of Okhotsk. Russia has used it as a penal colony since 1869. Among the people of Russia it is called the Isle of the Lost. It is well named by them. No person who is sent to this island ever returns. The government apparently desires to add to this impression of hopelessness by preventing as far as possible, any description of the life lived there from reaching the people. It would have an atmosphere of gloom hang over the island. It would have exile to this forsaken spot mean the crossing of a yawning gulf into a world from which no word can return. There a false passport is not worth the trouble of writing it. Passport or no passport it makes no difference.

A few foreigners have been able to spend a short time on the island in recent years. It has usually been difficult to secure pictures of the life there.

Only those who are sentenced to penal service for life because

## READ THIS

Milledgeville, Ky., Jan. 1, 1904.—Dr. E. W. Hall, St. Louis Mo., Dear Sir: I have been a great sufferer from kidney disease and was treated by my home physicians with no benefit. Your Texas Wonder has cured me and I am satisfied it saved my life, and I can cheerfully recommend it to ladies suffering with kidney and bladder troubles.

Respectfully,  
MRS. ELIZA FROST.

## A TEXAS WONDER

One small bottle of Texas Wonder, Hall's Great Discovery, cures all kidney and bladder troubles, removes gravel, cures diabetes, seminal emission, weak and lame backs, rheumatism and all irregularities of the kidneys and bladder in both men and women. Regulates bladder trouble in children. If not sold by your druggist, will be sent by mail on receipt of \$1.00. One small bottle is two months' treatment, and seldom fails to cure any of the above mentioned. Sold by all druggists. Dr. E. W. Hall, sole manufacturer, P. O. box 629, office, 2931 Olive Street, St. Louis, Mo.

of some great crime, personal or political, are sent to Saghalien. The prisons are not great stone dungeons, such as those to which the American is accustomed. They resemble barracks, or great wooden warehouses. The stockades around the portion devoted to the incarceration of the most violent criminals if constructed around an orchard would only add to the fun of stealing the apples for an American boy. Leaving the prison, however, is like jumping from the frying pan into the fire, so the temptation to do so is not great. The main prison is divided into three parts. One is for the privileged convicts. The workshops and cells for the best behaved prisoners are here. The good conduct prisoners, who are permitted to go outside in the day to labor, occupy the middle part. The northern quadrangle is surrounded by a strong stockade and overlooked by a watch tower. There are kept the most desperate criminals, who wear "irons" weighing 14 pounds. All the prisoners are kept there through the first year of their incarceration.

As capital punishment is not a part of Russia's criminal code, many of the prisoners are murderers who have been sent there to remain for life. All the servants of the officers are criminals.

## AFTER READING NEW NOVEL

Some Questions It Might Occur to the Reader to Ask Concerning Features of Story.

Why did the town nestle among the hills? asks Tom Masson, in Life.

Why did she feel a mantling blush steal over her cheeks?

How did it happen that a strange sense of unrest swept over him?

What was it that she swept out of the room?

Why did she never look more strangely beautiful than upon that evening?

What made him flick the ashes from his cigarette?

How long did her heart stand still?

Why did the cold wind that fanned their cheeks feel so good?

Why did it seem to her as if all the light had gone out of her young life?

What made the house stiller than death that night?

When confronted by the lawyers, why was he visibly affected?

Why was she the life of the whole gathering when her heart told her that all was lost?

Why did the dog look up at that moment and wag his tail, as if he, too, understood her?

What choked his utterance?

What made her look back on that day all the rest of her life?

Why was there a long pause?

Why were her hands so nerveless when she let the telegram drop?

What made her suspect that he had been drinking?

Why did he clutch the photograph so wildly?

## ALL RIGHT BUT THE RING.

Photographs Were O. K., But New Young Man Hadn't Given Her Solitaire as Yet.

Yarnall Abbott, of Philadelphia, who, though an amateur, is admitted to be one of the best photographers in America, collects with much zest stories about the camera.

"A North Ninth street photographer," he said the other day, "told me that a young woman brought back to him a dozen cabinets that he had made of her the week before."

"What?" he exclaimed, in dismay. "Bringing them all back? I thought they were very successful."

"The young woman reassured him with a smile."

"Yes," she said, "oh, yes. They are successful. I only want you to touch out the ring. I've got a new young man."

## CELEBRATE JULY 4th.

## Philippine Teacher Describes Independence Day Exercises.

Dao, Copaz, Panay, July 5, 1906.  
The Star Spangled Banner flaps merrily in the morning breezes.

We are but nine "Americans" in the town of Dao but on taking stock on the night of July 3rd we found ourselves nine revolvers and two Krags strong with fire crackers large and small. Something must be done to arouse the dormant interest of the children of the Pacific to a fuller realization of the great American Fiesta.

Too long have these people followed wooden saints procession, in their many fiestas with much blowing of horns and ringing of bells, giving their hearts in vague uncertainty to near podres and wooden images or a distant God. But, here was something real, Independence day, the image of God standing forth in flesh and blood, God like the free. This is something to celebrate, and how celebrate more fittingly than with gun powder? Was it not this that made the weak arm with a brave heart stronger than all the muscle and brawn of curls and cowards?

So we tried a preliminary round on the night of the third and spread our smoke on the early morning air of Independence day, tearing the thunders of Echo from his mountain heights to wake the drowsy Filipino with the ponderous throbbings of Independence, giving him the glorious privilege of watching our smoke.

In the evening our principal, Mr. Langham opened his parlor, which we had decorated with palms and flowers, and the youth of Dao escorted by the necessary papas and mamas came in for "nuagrande baile."

The town band and the school orchestra gave us music. There was cheer for old and young and all was merry as Christmas Chimes.

Hasta Luego,

DON JUAN.

## SULPHUR SPRINGS.

Aug. 16.—The Ice cream supper at Mt. Vernon Saturday night was quite a success and was enjoyed by all who were present.

R. C. Duff and wife, Narrows, spent last Saturday and Sunday with Mrs. Duff's parents, Mr. and Mrs. Cicero Magan.

Mack Daniel and L. B. Daniel and wife, Chas. White and Misses Laura and Ester Johnston attended the Chautauqua at Owensboro last week.

Bob Weller and wife are visiting Mr. Weller's mother, Mrs. Harrett Weller, at this place.

Roe Harrison, wife and daughter, Levia, spent the day with J. F. Magan last Sunday.

Mrs. Lafe Weller and children are in Owensboro.

L. B. Daniel, wife and son, and Miss Callie Shultz, of Olaton, visited the family of T. F. Johnston, last Saturday and Sunday here.

Mrs. Vernon Yates and sister, of St. Louis, Mo., are visiting friends and relatives.

(FROM ANOTHER CORRESPONDENT.)

Aug. 15.—The people of Sulphur Springs and surrounding country have been blessed by another good rain. Corn in both hill and bottom land is fine.

T. C. Bean, the proprietor of the springs, is having a well dug on the grounds for the benefit of those who do not like sulphur water.

Miss Murial Gregory, of Cloverport, was the guest of Dr. and Mrs. J. A. Duff last week.

George Abram, G. B. Bean and Tip Bean are on the sick list.

A State geologist has been in our midst for the past two weeks looking for mineral. He states that he has made several discoveries.

Railroad is all the talk. We trust the good people between here and Dundee will soon make up their minds to give right away for the road. We understand some are opposed to the road and are talking against it.

As usual there was quite a large crowd at the Springs Sunday afternoon. This summer has caused us to think of olden times when every body in the surrounding country would come to the Springs on Sun-

days to spend the day.

## OLD MAN JILTED.

## Evansville Girl who was Betrothed to Widower Married Younger Lover.

Evansville, Ind., Aug. 15.—Miss Nettie Frances Carr, a society woman of Evansville, chose between youth and age, jilted the man she had promised to wed and became the bride of another. Last night Miss Carr was married to John Warren Pearce, Jr., a wealthy business man of St. Louis, an Englishman by birth and a handsome man. It developed yesterday that Miss Carr was engaged to marry John Huntington Crandall, a prominent lawyer of Kansas City, Mo., a widower who has two daughters at school.

Recently invitations were received here for a wedding breakfast, to follow the Crandall-Carr nuptials, which were to take place August 15. Pearce who had long been a suitor for Miss Carr's hand, came here and induced the girl to accept him and turn down the Kansas City barrister. Immediately after Miss Carr became the bride of Pearce she wrote Crandall a note, telling him their engagement was broken.

## SURPRISED AND AMAZED.

Mrs. Noah Webster Was Flustered, Anyhow, When Her Husband Kissed the Housemaid.

Noah Webster, the lexicographer, was, as might be supposed, a stickler for good English, and often reproved his wife's misuse of the language.

On one occasion Webster happened to be alone in the dining-room with their very pretty housemaid, and, being susceptible to such charms, put his arms around her and kissed her squarely on the mouth.

Just at this moment Mrs. Webster entered the room, gasped, stood aghast, and, in a tone of horror, exclaimed:

"Why, Noah, I am surprised!"

Whereupon Mr. Webster, coolly and calmly, but with every evidence of disgust, turned upon her.

"How many times must I correct you on the use of simple words?" he remarked. "You mean, madam, that you are astonished. I, madam—I am the one who is surprised."

## London's Paupers.

London lays out for poor relief \$22,000,000 a year, and 28 out of every 1,000 of the population receive relief as paupers. In one district, West Ham, 40,000 persons were recently reported as on the edge of starvation. There is not work enough there for all the workers, but a large proportion of the destitute are incapable of performing labor. They are human wrecks and must be supported by charity or perish. Throughout England at large there is considerable poverty, but it is most pressing and visible in the capital, and students of social phenomena and symptoms say it is mainly due to drink.

## Extravagant Living.

The Emperor Franz Josef of Austria has good cause to grumble about his kitchen expenses. Although the actual cost of the food he consumes himself does not amount to \$5,000 a year, he pays his chef, a Belgian, a salary of \$10,000 per annum, and the kitchen expenses at the palace are never less than \$75,000. The emperor's chef always submits a menu for the following day's dinner to his royal master when dinner is served. Punctually at 6 o'clock his valet enters with a large tray, and while Franz Josef is eating his soup he scans tomorrow's menu and crosses off with a blue pencil anything he does not care for.

## Europe's Largest Building.

The Winter palace, in St. Petersburg, is the largest building in Europe. It was begun by Peter the Great and finished by Catherine II. and is built in red sandstone. It contains the finest staterooms. Beside these staterooms it has 1,500 other rooms. The imperial nurseries are very large, and when it is explained that one of the rooms is large enough to hold a "mountain" down which the children toboggan some idea will be given of its magnitude. This room is upholstered, and here the royal children are taught and are sometimes joined in their lessons by cousins or friends.

## An Indisputable SAFE INVESTMENT

The material progress which our country is now, and has been making for the past decade of years, naturally brings to the surface numerous schemes of the "get-rich-quick" character that benefit only the promoters of such, at the expense of innocent investors.

In this age of genuine prosperity with every legitimate business booming, wages high, work in abundance, giving employment to all willing to earn, and products of the farm bringing best prices; there is little or no excuse for one not to join the army of money-makers.

The first and safest investment to make is to become a reader of the CINCINNATI ENQUIRER, the greatest and most reliable newspaper in the United States. With the facts, truth and information gleaned from its columns, one may become well qualified to reach out and secure his share of profit that always accrues from investments intelligently made.

The WEEKLY ENQUIRER costs but one dollar for one year's term. The SUNDAY ENQUIRER costs you two dollars for a year. The DAILY ENQUIRER (7 issues a week) you get for fourteen dollars a year.

Without the aid of a first-class newspaper, success in any enterprise becomes problematical. For ten cents you can secure a sample copy of each, DAILY, SUNDAY and WEEKLY ENQUIRER. Address,
